

## GAM works with the DTI to provide funding

### Expanding Business

A medium sized manufacturing business needed a new item of plant to fulfil its obligations under a large contract with a national retailer.

A well thought out business plan and rationale was provided and as the business was unable to secure funding in the normal way. **GAM** was able to introduce funding through the Small Firms Loan Guarantee Scheme ('SFLGS').

**GAM** provided a £50k facility over a five year period. The business has gone on to win further contracts as a specialist in its field.
